

BROS DISTRIBUTOR'S Product Catalog

About Bros Distributor

WELCOME TO PRODUCT CATALOG

Online business has the potential to bring in great revenue and profit, but compared to the entire retail market in the US, it only accounts for 13%. The reason is because of the long-standing and strong development of retail chains throughout the United States, and because of American shopping habits and behaviors, the direct retail market still accounts for a large proportion and brings huge revenue.

But cross-border business is already difficult due to geographical barriers, sales in retail chains in the US are even more difficult, especially in accessing and promoting products to retailers and distributors. Besides, there is the problem of handling goods, shipping goods to customers quickly and accurately.

Understanding these things, and at the same time wishing for quality Vietnamese products to be widely promoted, not only on e-commerce platforms but also major chain stores in the US, Bros Warehouse launched "Distributor Service" the service of promoting and distributing offline goods at chain stores across the United States.

Limited Liability Company Tanisa

Tay Ninh rice paper specialties
